ACTIVITY REPORT (CHEMISTRY SOFTWARE TRAINING PROGRAMME)

Academic Year: 2018-19
Participants count: 05
Date of Activity: 01-Feb-2019 to 15-Mar-2019
Place: Department of Chemistry
Narayanrao Kale Smruti Model College, Karanja (Gh.), Dist. Wardha

Objective (100 words): As a part of extension activity department of chemistry conducted the 'Chemistry Software Training Programme' for B.Sc. Final year students. ACD/Chem Sketch Freeware is a drawing package that allows the students to draw chemical structures including organics, organometallic and polymers structures. It also includes features such as calculation of molecular properties (e.g., molecular weight, density, molar refractivity etc.), 2D and 3D structure cleaning and viewing, functionality for naming structures (fewer than 50 atoms and 3 rings). Students of SEM VI are participated in the chemistry software training programme. After completion of training students submitted their project reports.

ACTIVITY REPORT- Soil Health Awareness Program

Academic Year: 2018-2019

Participants count: 100

Date of Activity: 01/02/2019

Place: Jilha Parishad Prathmk Shala, Junapani, Karanja Ghadge

Objective (100 words): Soil testing is now an intrinsic part of modern farming in the west, as well as in many developing countries. So we arrange lecture of Mr. P.D. Madankar, he is Deputy manager, RCF at Wardha. He gave importance and all detailed information for process of soil and water testing facility at taluka level. Tests primarily focus on the elements in most demand by crops which are supplied by fertilizers: nitrogen (N), phosphorus (P), and potassium (K). Depending upon the soil types, in some regions tests are also conducted for secondary nutrients: calcium (Ca), magnesium (Mg), and sulfur (S). In drier areas, micronutrients such as iron (Fe), zinc (Zn), manganese (Mn), copper (Cu), and boron (B) are often measured, since deficiencies of these elements are more frequently associated with calcareous soils. Farmers are the very important part of society. A farm which is used for farming it has two main parts one is soil and second is water. So it is necessity to check the parameters regarding the soil and water

ACTIVITY REPORT

Department: English

Name of Activity: UGC Sponsored certificate course in Communicative English

Academic Year: 2019 - 2020

Participants count: 40

Duration of Activity: 15 June to 30 April

Place: Narayanrao Kale Smruti Model College Karanja (Gh) Dist- Wardha

Objective (100 words):

To acquaint students about skills of communication and use of language used in routine life.

To know about formal and informal communication which is very useful daily and professional life

To imbibe basic skills of language like reading, writing, listening and speaking

To get more information about English language and increase vocabulary of students.

To increase habit of data collection among students.

ACTIVITY REPORT

(Chemistry Software Training Programme)

Academic Year: 2019-20
Participants count: 05
Date of Activity: 01-Jan-2020 to 30-Jan-2020
Place: Department of Chemistry
Narayanrao Kale Smruti Model College, Karanja (Gh.), Dist. Wardha

Objective (100 words): As a part of extension activity department of chemistry conducted the 'Chemistry Software Training Programme' for B.Sc. Final year students. ACD/Chem Sketch Freeware is a drawing package that allows the students to draw chemical structures including organics, organometallic and polymers structures. It also includes features such as calculation of molecular properties (e.g., molecular weight, density, molar refractivity etc.), 2D and 3D structure cleaning and viewing, functionality for naming structures (fewer than 50 atoms and 3 rings). Students of SEM VI are participated in the chemistry software training programme. After completion of training students submitted their project reports.

ACTIVITY REPORT

Academic Year: 2019-2020

Name of Activity: Certificate course in "Applied Electronics devices assembled equipment's & embedded technology".

Participants count: 40

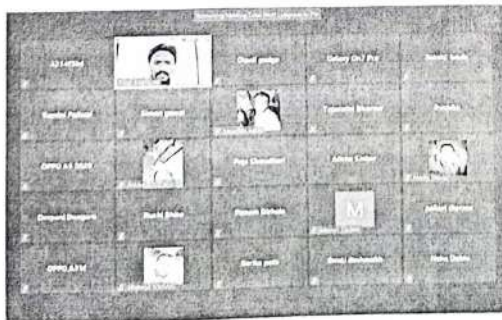

Duration of Activity: 3 months (September, December, January- 2020)

Place: Department of Physics, Narayanrao Kale Smruti Model College, Karanja (Gh.) Dist: Wardha

Objective (100 words):

In session 2019-20 the Department of physics conducted Certificate course in "*Applied Electronics devices assembled equipments & embedded technology*". The main objective of this course is to give training to the students of rural area of Karanja (Ghadge) Tahsil about handling of electronics components, equipment's, electrical wiring in home, offices, shops, etc. in order to provide Self-employment to them. But in this session due to COVID-19 Lockdown, the syllabus is completed through online mode. In Online mode Department uses difference method of online teaching such as Google classroom, you tube, whatsapp group, etc. in this activity students got study material through PDF and PPT format every day along with multiple questions. After completing tenure of syllabus department organized online final test through google forms. All the qualified student in online exam got certificate of participation.

ACTIVITY REPORT (Scholarship Awareness Program)

Academic Year: 2019-2020

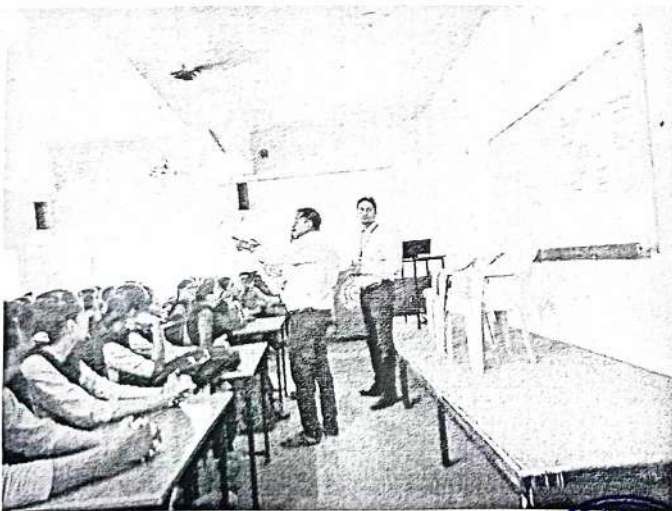

Participants count: 550

Date of Activity: 21-08-2019

Place: Narayanrao Kale Smruti Model College, Karanja Ghadge

Objective (100 words): Education has become one of the most valuable and costly things in today's society. Scholarships help students pay for education by providing financial assistance. Obtaining the scholarship eliminates any financial problems. As a result, students will have more time to study, develop information and improve their grade. Keeping the above point in mind, our college organized Scholarship Awareness Program for the students. Mr. Chitrasen Brodarle, Manager, Indian Post Payment Bank, Wardha was the speaker for this program. Mr. Avinash Lohe introduced the speaker and outline of the programme.

ACTIVITY REPORT- Soil Health Awareness Program

Academic Year: 2019-2020

Participants count: 100

Date of Activity: 07/02/2020

Place: Jilha Parishad Prathmk Shala, Junapani, Karanja Ghadge

Objective (100 words): Soil testing is now an intrinsic part of modern farming in the West, as well as in many developing countries. So we arrange lecture of Gaurav Pethe, Assistant Professor, Department of Chemistry of our college at NSS camp. He gave importance and all detailed information for process of soil and water testing facility at taluka level. Tests primarily focus on the elements in most demand by crops which are supplied by fertilizers: nitrogen (N), phosphorus (P), and potassium (K). Depending upon the soil types, in some regions tests are also conducted for secondary nutrients: calcium (Ca), magnesium (Mg), and sulfur (S). In drier areas, micronutrients such as iron (Fe), zinc (Zn), manganese (Mn), copper (Cu), and boron (B) are often measured, since deficiencies of these elements are more frequently associated with calcareous soils. Farmers are the very important part of society. A farm which is used for farming it has two main parts one is soil and second is water. So it is necessity to check the parameters regarding the soil and water

ACTIVITY REPORT

Academic Year: 2020-2021

Name of Activity: Certificates course, "Applied Electronics devices assembled equipment's & embedded technology".

Participants count: 40

Duration of Activity: 3 months (September, March, April- 2021)

Place: Department of Physics, Narayanrao Kale Smruti Model College, Karanja (Gh.) Dist: Wardha

Objective :

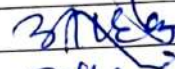

In this session due to COVID-19 Lockdown, the syllabus is competed through online mode. In Online mode Department uses difference method of online teaching such as Google classroom, you tube, whatsapp group, etc. in this activity students got study material through PDF and PPT format every day along with multiple questions. After completing tenure of syllabus department organized online final test through google forms. All the qualified student in online exam got certificate of participation. The main objective of this course is to give training to the students of rural area of Karanja (Ghadge) Tahsil about handling of electronics components, equipments, electrical wiring in home, offices, shops, etc. in order to provide Self-employment to them. The program is parallel to Conventional B.A, B.Com and B.Sc degree courses.

ACTIVITY REPORT

MEDICINAL PLANT CERTIFICATE COURSE

INTRODUCTION AND UTILIZATION OF MEDICINAL PLANTS

Academic Year: 2021-2022
Participants count: 29 Students
Date of Activity: 9th February 2022
Place: Department of Botany and Department of Zoology, Narayanrao Kale Smruti Model College (Art, Commerce and Science) Karanja (gh.) Dist-Wardha

Objective (100 words): 1) Take part in Biodiversity conservation. 2) Give knowledge about plant diversity and their medicinal uses. 3) Uses of medicinal plants for preparation of various types of pharmaceutical drugs. 4) Importance of Ayurveda, Unani. 5) Historical importance of medicinal plants. 6) Plantation of medicinal plants.

* In our institute we started new certificate course on the title "INTRODUCTION AND UTILIZATION OF MEDICINAL PLANTS" which is run by Department of Botany and Department of Zoology. Students of any faculty B.A, B.Com and B.Sc are eligible to join this certificate course. This three months certificate course. We provided a syllabus of this certificate course to the students, study materials, PPT, small project and MCQ test to students. The students got useful information through this certificate course. 29 students successfully completed this course. The course beneficial for future studies. For this course Dr. Pallavi Ulhe, Dr. Pushpanjali Bidwai, Dr. Pravin Kale, Dr. Lokesh Wankhade take efforts for success of the course.

ACTIVITY REPORT (Soil Health Awareness Program)

Academic Year: 2021-2022

Participants count: 25

Date of Activity: 03-05/03/2022

Place: Chemistry Lab, NKS Model College, Karanja Ghadge

Objective (100 words): Soil testing is now an intrinsic part of modern farming in the West, as well as in many developing countries. So we arrange practical demo for soil and water testing under guidance of Gaurav Pethe, Assistant Professor, Department of Chemistry of our college at NSS camp. He gave importance and all detailed information for process of soil and water testing facility at taluka level. Tests primarily focus on the elements in most demand by crops which are supplied by fertilizers: nitrogen (N), phosphorus (P), and potassium (K). Depending upon the soil types, in some regions tests are also conducted for secondary nutrients: calcium (Ca), magnesium (Mg), and sulfur (S). In drier areas, micronutrients such as iron (Fe), zinc (Zn), manganese (Mn), copper (Cu), and boron (B) are often measured, since deficiencies of these elements are more frequently associated with calcareous soils. Farmers are the very important part of society. A farm which is used for farming it has two main parts one is soil and second is water. So it is necessity to check the parameters regarding the soil and water

ACTIVITY REPORT

Academic Year: 2022-23

Participants count: 40

Date of Activity: 01-Feb-2023 to 25-Feb-2023

Place: Department of Chemistry
Narayanrao Kale Smruti Model College, Karanja (Gh.), Dist. Wardha

Objective (100 words): As a part of extension activity department of chemistry conducted the 'Chemistry Software Training Programme' for B.Sc. Final year students. ACD/Chem Sketch Freeware is a drawing package that allows the students to draw chemical structures including organics, organometallic and polymers structures. It also includes features such as calculation of molecular properties (e.g., molecular weight, density, molar refractivity etc.), 2D and 3D structure cleaning and viewing, functionality for naming structures (fewer than 50 atoms and 3 rings). Students of SEM VI are participated in the chemistry software training programme. After completion of training students submitted their project reports.
