

Student Satisfaction Survey 2022-23

The institute carries out a student satisfactory survey (SSS) every year in the month of March or April. The survey based on feedback form and student satisfaction by the questionnaires as given by the NAAC website and own questions design by the college for calculating overall performance of the institution. By taking survey generates summery for analysis and put this summery to the management for further process. On the feedback management review and approve some improvement to implementing action for next year for betterment. The aim of this survey is to assess student satisfaction with college facilities provided by. The survey form is distributed to the ten students randomly in each department and student filled this form on facilities likes infrastructure, physical facilities, students support services, teacher communication, teaching quality, teaching resources and teaching environment in the college.

➤ Survey Analysis & Result:

The number of students in final year are 295 and out of this, 241 student filled responses of the feedback form. The percentage of completing survey rate is 81.69 % in this year. For this survey questionnaires depends on the following parameters:

Sr. No.	Parameters	Reponses	Remark
1	Student Support Service	As per the Student feedback analysis, 85% students are satisfied with services provided by the institution and management.	
2	Quality of teaching-learning process & teaching quality	Students are impressed with the teaching-learning process specially teaching methods and excellent communication skills with good quality knowledge.	
3	Physical Facilities & Infrastructure	Students are happy with the infrastructure and physical facilities, but by survey result students wants to improve more facilities in same for department.	

4	Accessibility & teaching-Learning resources and College Environment	According to Students survey, students agreed adequate accessibility was provided, but there are improvements are still needed in computer facilities and library resource accessibility.	
5	Student Satisfaction level on overall institutional performance	Based on the above analysis and student feedback, 81.69 % of students (active participants) reported being satisfied with the college's services and facilities.	

➤ **Conclusion:**

According to the survey analysis, 81.69 % active students are successfully completed student satisfactory survey. Based on their feedback, we are able to determine that the students are satisfied with the facilities offered by the college as well as the excellent teaching-learning strategies. Still, there is need to upgrade facilities in sports, physical infrastructure and ICT necessities. Also, students want to improve more facilities in library resources accessibility. Next, this survey report is sent to the management for further action on suggested recommendation.
